# getting to know the chick mission

The Chick Mission idea “hatched” when Founder Amanda Rice’s fertility preservation coverage was denied by her insurance company. She understood the treatment plan of chemotherapy, radiation and long-term drug therapy would likely render her infertile and chose to cover the costs on her own.

Knowing other patients may not pursue preservation simply because of the cost barrier did not sit well with her... socioeconomic standing should not dictate opportunities to have biological children after a person battles cancer! In response, The Chick Mission was born to...

# *night-of fundraising* match sponsorship

On the night of the Gala, we will challenge our guests to raise \$150,000 in the room. We're seeking sponsors to underwrite a 1:1 match so that our guests can DOUBLE their impact on the lives of women battling cancer when they make a gift during the event. By sponsoring our match, you will be actively improving cancer patients' lives and encouraging Gala guests to do the same. It is also a powerful way to showcase your brand in alignment with our mission — one that restores hope for women when they need it most and will change the cancer care landscape for the better, for good.

## match sponsors receive:

Verbal shoutout from the Gala stage to a room of 500+ guests

Prominent logo display in pre-event communications and on-screen at the event
